BIRTHDAY PARTIES IN HEZLETT PRIMARY

Dear Parent

4/11/20

We realise that it is impossible for our pupils to enjoy a normal Birthday Party at the moment. School would like to help make that experience possible for our pupils. To this end, we have decided to hold a party on the last Friday afternoon of each month, to celebrate any birthday's which fall within that month.

The party will take place during 'Golden Time' and will involve party games, music and fun activities as well as the prerequisite birthday cake or treats. If you wish to send in a shop bought cake still in the box to avoid any possible contact with Covid 19, then we will share that with all pupils in the class. There may be occasions when we have a few birthdays each month and other months with none, but we want every child to have the opportunity to have their special day recognised in a fun way.

For those pupils who have already had a birthday in September or October and did not get a chance to have a party, they will be included in our November class parties.

Yours sincerely

Donna Winters
